Why dogs hump and bees get depressed : the fascinating science of **animal intelligence, emotions, friendship, and conservation**

## 18. A Beautiful Mind Exploring the Emotional Lives of Animals

In this telling **interview**, Jonathan is joined by fellow ethologist **Marc Bekoff**, author of **The Animal Manifesto: Six Reasons for Expanding Our Compassion Footprint**. Together, they offer moving insight into the **animal** mind and underscore the moral implications of what we have learned from the close study of **animal** behavior.

## 19. The Emotional Lives of Animals A Leading Scientist

If the onus on **Emotional Lives of Animals** author **Marc Bekoff** was simply to prove that nonhuman creatures exhibit Charles Darwin's six universal **emotions** (anger, happiness, sadness, disgust, fear, and surprise), then his book would be very brief. As anyone who has ever had a pet dog, cat, rabbit, or even bird can attest, **animals** not only possess such **emotions** but broadcast them clearly and often.

## 20. Books About the Emotional Lives of Animals

**Marc Bekoff** spent years studying social communication across a wide range of species. In this book, **Bekoff** explores how **animals** display a broad range of **emotions** including compassion, happiness, joy, empathy, grief, anger, and even resentment and embarrassment.

## **21. What It Means To Be An Animal Person**

**Bekoff** has devoted his professional life to exploring the **emotions** and **intelligence** of other **animals**, including those who walk on two legs. If there's a species that sometimes leaves him bewildered, it is *Homo sapiens*—in particular the stubborn unwillingness some of us have to recognize that sentience flows between us and other creatures.

## **22. The Animal Manifesto Six Reasons for Expanding Our**

In this inspirational call to action, **Marc Bekoff**, the world's leading expert on **animal emotions**, gently shows that improving our treatment of **animals** is a matter of rethinking our many daily decisions and "expanding our compassion footprint."

## **23. Animals Matter A Biologist Explains Why We Should Treat**

Nonhuman **animals** have many of the same feelings we do. They get hurt, they suffer, they are happy, and they take care of each other. **Marc Bekoff**, a renowned biologist specializing in **animal** minds and **emotions**, guides readers from high school age up—including older adults who want a basic introduction to the topic—in looking at scientific research, philosophical ideas, and humane values ...
